Build your base, attack your enemies and pave the way to victory for your clan in tactical multiplayer. Plarium, creator of the hit titles Vikings: War of clans and Thrones: Kingdom of war, has developed a deep strategy for MMO in the Terminator universe. Set immediately after the movie's events, Terminator Genesis: Future War gives players the opportunity to redefine the future with an addictive game, constant action, and massive clan warfare. With two different playing factions, you can choose to take the role of resistance commander or Skynet's core leader, and either save the last humanity or crush it under your kionetic heel. John Connor is MIA, and resistance doesn't work. As a human leader, you need to rebuild the most determined military force of mankind, find and recruit survivors to your cause and stop the machines from activating Skynet. Or you can betray humanity and convert yourself to join machine regiments. Would you like to play as an unstoppable killing machine? When you use the main Skynet kernel offline, the secondary protocols are clear. Build factories, find lost battle schemes and stop the human threat once and for all. If you feel sympathetic to a human cause, you can decide to reprogram yourself and fight along with the Resistance.Both sides are fighting for their lives, and defeat is not an option. Arm themselves with futuristic tanks, ruthless infantry and devastating weapons and win the future war once and for all!
